

# BUILD YOUR CITY

Exhibit 2 - Number recognition from 1 to 10

• **Level of difficulty**  
Level 1

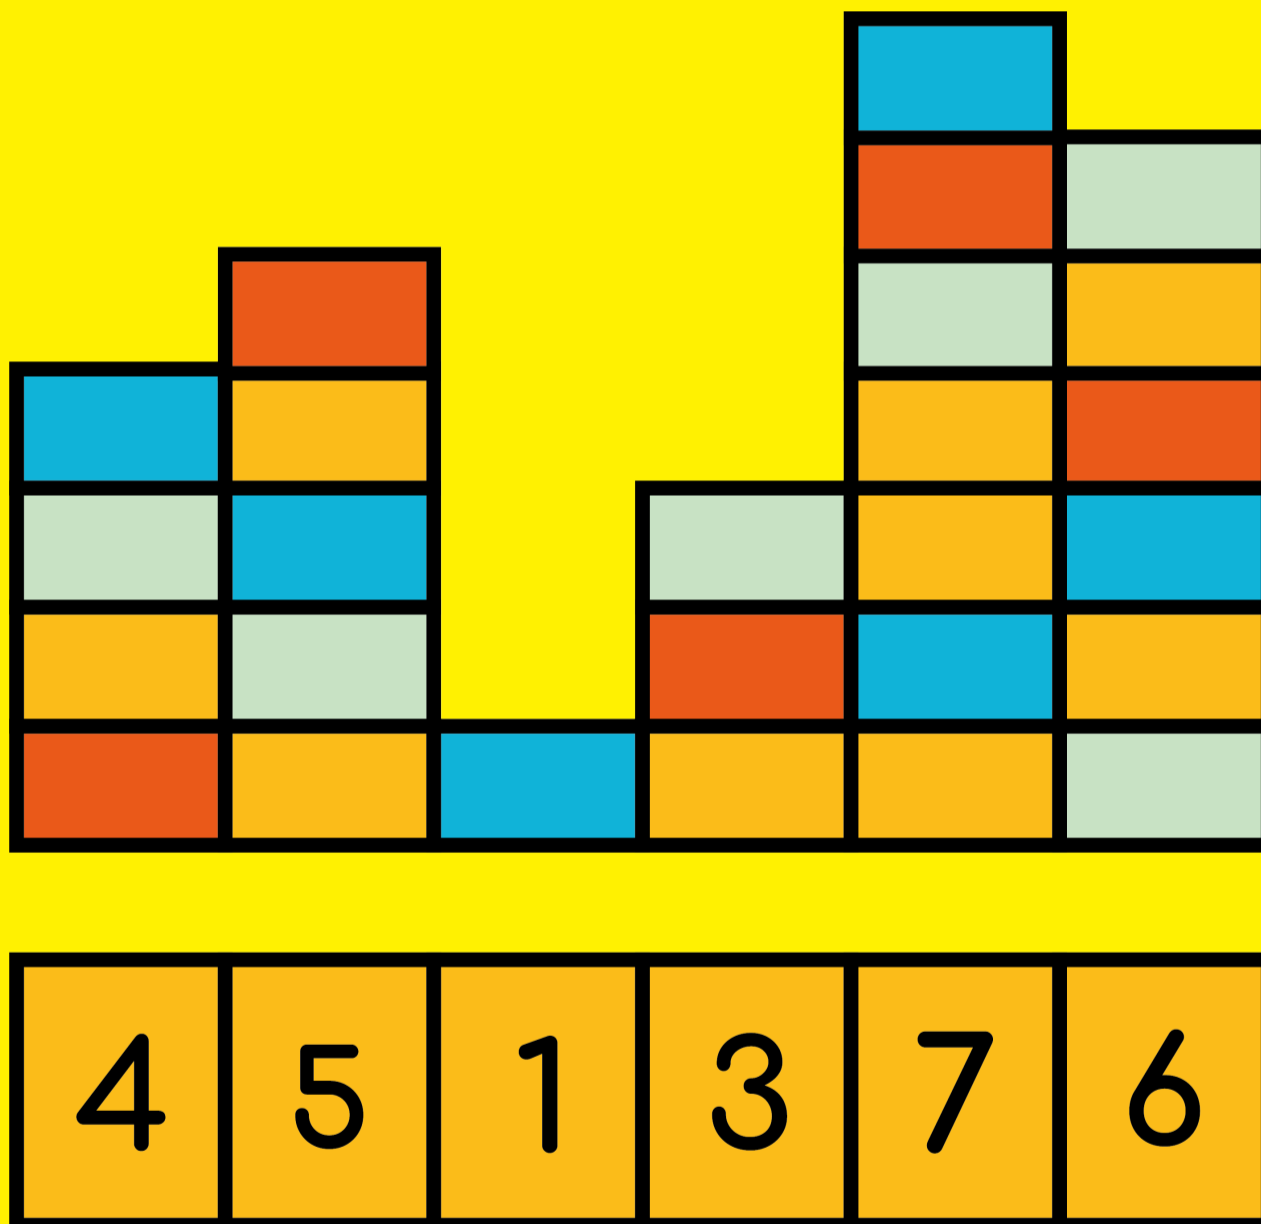

• **Duration of the activity**  
10 minutes

• **Number of participants**  
Individual or pair activity

• **Mathematical concept**  
Counting up to 10

• **Inventory**  
- "Build a City" Template  
- 30 Building blocks  
- Numbers from 1 to 10

• **Skills worked on**  
- The child identifies the numbers and learns to count  
- The child learns to classify objects according to a criterion, here the difference in the number of blocks

To Go Further  
Level 2

- Build a city only with tens, assuming that 1 block = 10 units
- Build a city with the result of an addition or subtraction
